- Features: View product, Add products to cart, View cart, Payment processing

COURSES

20/4 - 18/5

Course: Software Development With Scrum (training with Axon Active) 2023
Developer

The Scrum methodology is a set of defined steps. By implementing them, I will initiate my projects following my own Scrum framework, manage them appropriately, and complete them within the designated deadlines, while being able to observe the individual efforts of each team member during daily Scrum meetings.
